FOR IMMEDIATE RELEASE

ARGOTEC ISSUES WHITE PAPER ON TOLL MANUFACTURING OF TPU FILM & SHEET

GREENFIELD, MA, JANUARY 20, 2012 — Argotec, Inc., of Greenfield Massachusetts U.S.A., one of the world’s largest manufacturers of thermoplastic polyurethane film and sheet, today issued a white paper entitled “Selecting a Toll (Contract) Manufacturer to Produce Proprietary TPU Film & Sheet.”

The white paper describes:

1. The need for toll manufacturers of TPU film & sheet.
2. What is toll manufacturing, as opposed to private labeling.
3. Why a company might consider toll manufacturing a TPU film product instead of private labeling or building an in-house film extrusion operation.
4. Who supplies the raw materials.
5. What can be included in a comprehensive toll manufacturing agreement.
6. Why Argotec is an excellent choice as a toll manufacturer.
7. How to start the process.

Thermoplastic polyurethane film and sheet is a very challenging product to manufacture properly, which is one reason many firms desiring to produce a proprietary TPU film product

seriously consider contracting a reliable, experienced toll manufacturer with the capability and capacity to produce the needed product within the time constraints of the customer's overall marketing plan.

This white paper is designed to help a firm contemplating this course to consider the various manufacturing and supplemental support options available from a full service toll manufacturer.

It can be downloaded from the Argotec web site at:

<http://www.argotec.com/TollManufacturing.html>.

About Argotec

Argotec is a privately held, global supplier of custom-engineered, high-performance, polyurethane film and sheet for a wide variety of critical applications. In addition to flat-die, cast-on-carrier and blown-film-extrusion technologies, the company also has expertise in extrusion coating, multi-layer constructions and closed-cell polyurethane foam sheet extrusion. Argotec provides film & sheet products globally to the international specialty films market, adhesive coaters, glass laminators, plastics converters and fabricators, as well as to OEM's.

Further information may be obtained by calling (413)772-2564, faxing (413)772-2565, e-mailing info@argotec.com, or visiting the Argotec website: www.argotec.com. A copy of the white paper is attached to the e-mail accompanying this release.
