FOR IMMEDIATE RELEASE

ARGOTEC OFFERS 18411 MEDICAL FILM FOR TRANSDERMAL APPLICATIONS

GREENFIELD, MA, January 30, 2010 — Argotec's ArgoMed™ 18411-grade medical film is an ideal backing film for transdermal applications. An aromatic polyether thermoplastic polyurethane, it provides a highly conformable viral barrier that is comfortable to the touch and has excellent stretch and recovery. Available in gauges ranging from 0.2 to 125 mils and widths up to 63 inches, it is made from a USP Class VI certified polymer in a lubricant-free extrusion process that provides excellent wet-out with coatings and adhesives. ArgoMed™ 18411 can be made with smooth or matte surfaces delivered on polyethylene, polyester or paper carriers.
